

Where can I find a COVID-19 vaccine for my child?

Option 1 (recommended): Find a COVID-19 vaccine online

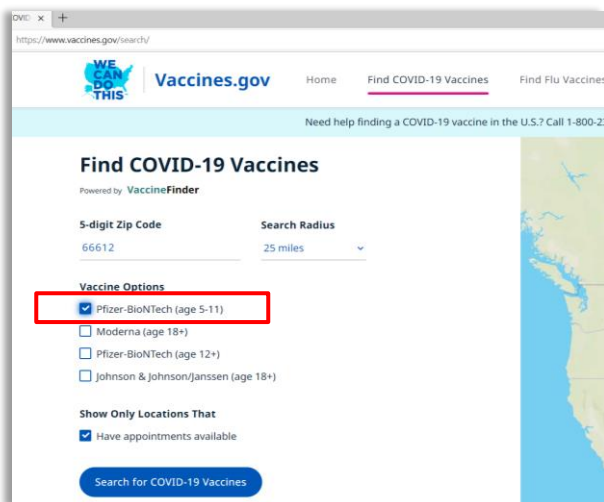

1. Visit <https://www.vaccines.gov/> and click on “Find COVID-19 Vaccines”

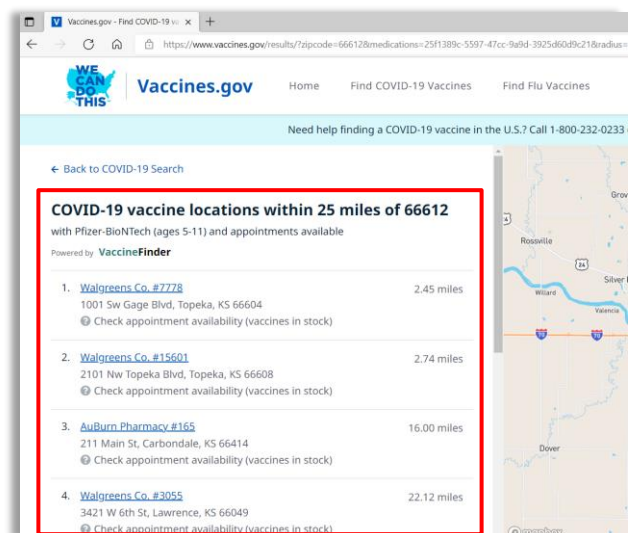

2. Enter your ZIP code

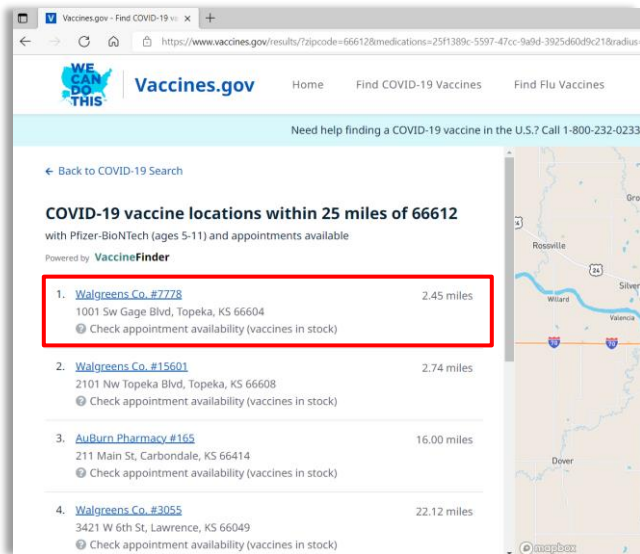

3. Under “Vaccine Options”, leave Pfizer-BioNTech (age 5-11) checked and uncheck the others (children under 18 may only receive the Pfizer-BioNTech vaccine)

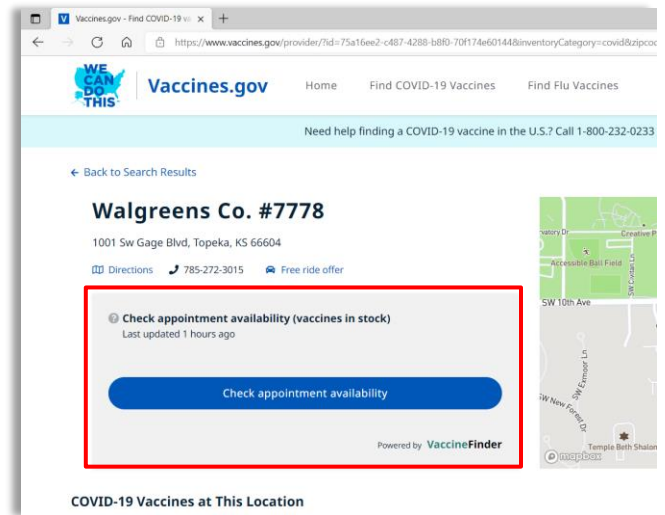

4. Review the list of COVID-19 vaccine locations near you

5. Click on a specific location to check availability

6. Each location's page will have information about appointments if you would like to make one (appt. not always required)

Option 2: Text the national GETVAX Text Line

- Text your ZIP code to 438829 (GETVAX) for English or 822862 (VACUNA) for Spanish
- You will receive a message back with three vaccination sites near you and their phone numbers to call for an appointment

Option 3: Call the Kansas vaccine hotline

- Call the statewide Kansas Department of Health and Environment COVID-19 Hotline at 866-534-3463 (866-KDHEINF)
 - Hours: Monday to Friday, 8:30AM to 5:00PM

Option 4: Call the vaccines.gov hotline

- Call 1-800-232-0233 (TTY 888-720-7489) to be connected to a call center representative who can provide information on vaccination sites
 - Available in English, Spanish, and many other languages
- For COVID-19 vaccine support in Spanish, [contact vaccines.gov on Whatsapp](https://www.vaccines.gov)
- To reach the Disability Information and Access Line (DIAL):
 - Call 1-888-677-1199 (9AM to 8PM Eastern Time)
 - Email DIAL@n4a.org
